

Nas

Boat ID: 938

Date: March 29, 2019

The **Pershing 46** is intelligently cool, a perfect harmony of performance and style and a brilliant reworking of the laws of liveability.

The **Pershing 46** has passed an environmental noise emission test with registered levels well within the strict limits imposed by Swiss legislation, which are more demanding than general European standards. The most advanced know-how in terms of acoustics and drive systems were brought together in this long process of research and testing to achieve a significant reduction in noise levels.

Space for creativity thanks to an original and ambitious layout, with no less than three cabins, all with en-suite bathrooms. Space for fun too, thanks to remarkably spacious exteriors. From the cockpit to the sundeck, refined comfort is the order of the day.

While there are three cabins, one is generally used for the Captain making two available for guests, hosting 4 persons.

Specifications & Accommodation
